

Love (What We Need More Of)

© Will Stanley 2018

A E
Love, there's simply not enough

One thing we need more of Gbm

The wonder drug called love. B E

A E
Joy, in every girl and boy

The entire Hoi Polloi, in the employ Gbm B

Of joy. E

Bm E
Peace, it needs to increase

To expand and spread throughout the lands Db Gb

People holding hands. B E

Make, think and plan, create
At all costs banish hate
Don't berate, keep ill will outside the gate
Cuz what we need more of, is love.

Am D7
Forgive, help all others live,

Don't hold a grudge, you're not a judge Gb7 B

You can always budge Bm E

Stop, you don't need to name-drop
You're awesome as you are, you're a star
Those who count know who you are
And what you need more of...is love

Meditate, take control of your fate
Sing a happy song, let others sing along
It'll make you strong.

Peace, urge it to increase
Give it elbow grease
You don't have to preach, just make it part of your beliefs
That what we need more of, is love.
