

Whatabout

© 2019 Will Stanley

C E7 Am
You say it's time for you to move on
Dm G C G
But I have to wonder what has become
C E7 Am
Of all those times you bared your soul to me
Dm G Am
And I showered you with love and empathy

Am G F C
Whatabout all those tears
F E7 Am
That you shed while laying out your fears
Am G F C
Whatabout all that pain
E7 Am D7
Was it for real or a game
C G F C G
Tell me please, what was that all about

I can't believe you'll find another guy
Who'll smother you with kisses when you cry
Or sympathize with how cruel life has been
And how dysfunction began your long tailspin

Whatabout those nights we shared
When I helped you out of deep despair
Whatabout all that pain
Was it for real or in vain
Tell the truth, what was that all about

Am Em
I thought my support would be a guarantee
Am Em
Of our relationship's longevity
G Am
Instead I find that you've changed your mind
G Am D7 G C G
And now you want to break all the ties that bind

Instrumental

Whatabout all those tears
That you shed while confronting all your fears
Whatabout all that pain
Was it for real or just feigned
Tell me please, what was that all about
Tell me please what was that all about.
