

# Yes I Do

© 2005 Will Stanley

I never thought I'd take your love for granted  
I assumed I'd relish each and every day  
As we harvested the loving seeds we'd planted  
Then feasted on the hominy they made

Imagine my surprise to find that you feel ignored  
And you think I'm bored  
Nothing could be further from the truth, I swear to you,  
And I want to show you plain, that my commitment's still the same and I do

Do I love and cherish you through and through  
(Do I, Yes I do)  
Do I wanna make love to you the whole night through  
(Do I, Yes I do)  
Do I, Yes I do.

It's true that I'd stopped bringing you home flowers  
Even though I knew you loved their smell  
I guess that I assumed that all the hours  
Spent sharing TV time would do as well

And now I see what's come to pass my worst fear  
I acted like you just weren't here  
And as I ponder what I can do to make things right  
One thing comes straight to mind, if you find you've got time I do too

Do I love and cherish you through and through  
(Do I, Yes I do)  
Do I wanna make love to you the whole night through  
(Do I, Yes I do)

Let's start this story over  
Take it from the top  
Turn on the loving motor  
And never let it stop.

Do I love and cherish you through and through  
(Do I, Yes I do)  
Do I wanna make love to you the whole night through  
(Do I, Yes I do)  
Do I, Yes I do.
